Operating and Financial Review and Prospects

The following is a discussion of the financial condition and results of operations for the three and six month periods ended June 30, 2018 and 2017 of Navios Maritime Partners L.P. (referred to herein as “we”, “us”, “Company” or “Navios Partners”). All of the financial statements have been stated in accordance with generally accepted accounting principles in the United States of America (“U.S. GAAP”). This Report contains forward-looking statements (as defined in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended) concerning future events and expectations including Navios Partners’ future distributions and its ability to sustain the revised distribution, opportunities to reinvest cash accretively in a fleet renewal program or otherwise and Navios Partners’ growth strategy and measures to implement such strategy; including expected vessel acquisitions and entering into further time charters. Words such as “may”, “expects”, “intends”, “plans”, “believes”, “anticipates”, “hopes”, “estimates”, and variations of such words and similar expressions are intended to identify forward-looking statements. Such statements include comments regarding expected revenue and time charters. These forward-looking statements are based on the information available to, and the expectations and assumptions deemed reasonable by, Navios Partners at the time this filing was made. Although Navios Partners believes that the expectations reflected in such forward-looking statements are reasonable, no assurance can be given that such expectations will prove to have been correct. These statements involve known and unknown risks and are based upon a number of assumptions and estimates, which are inherently subject to significant uncertainties and contingencies, many of which are beyond the control of Navios Partners. Actual results may differ materially from those expressed or implied by such forward-looking statements. Factors that could cause actual results to differ materially include, but are not limited to, uncertainty relating to global trade, including prices of seaborne commodities and continuing issues related to seaborne volume and ton miles, our continued ability to enter into long-term time charters, our ability to maximize the use of our vessels, expected demand in the dry cargo shipping sector in general and the demand for our Panamax, Capesize, Ultra-Handymax and Containerships in particular, fluctuations in charter rates for dry cargo carriers and containerhips, the aging of our fleet and resultant increases in operation and dry docking costs, the loss of any customer or charter or vessel, changes in the availability and costs of funding due to conditions in the bank market, capital markets and other factors, increases in costs and expenses, including but not limited to: crew wages, insurance, provisions, port expenses, lube oil, bunkers, repairs, maintenance and general and administrative expenses, the expected cost of, and our ability to comply with, governmental regulations and maritime self-regulatory organization standards, as well as standard regulations imposed by our charterers applicable to our business, potential liability from litigation and our vessel operations, including discharge of pollutants, general domestic and international political conditions, competitive factors in the market in which Navios Partners operates; risks associated with operations outside the United States; and other factors listed from time to time in Navios Partners’ filings with the SEC, including its annual and interim reports filed on Form 20-F and Form 6-K. Navios Partners expressly disclaims any obligations or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in Navios Partners’ expectations with respect thereto or any change in events, conditions or circumstances on which any statement is based. Recent Developments

Drybulk Fleet

- **Agreement to acquire two vessels**

In July 2018, Navios Partners agreed to acquire the Navios Sphera, a 2016-built Panamax vessel of 84,872 dwt and the Navios Mars, a 2016-built Capesize vessel of 181,259 dwt from its affiliate, Navios Maritime Holdings Inc. for a purchase price of \$79.0 million. These vessels are time chartered out on index-linked charters until January 2021 and February 2019, respectively.

The acquisition of the vessels is expected to be partially financed with a \$44.0 million new term loan facility and the balance with available cash. The loan facility has an amortization profile of five years, matures in July 2023 and bears interest at LIBOR plus 290 bps per annum.

The transaction was approved by the Conflicts Committee of the Board of Directors of Navios Partners.

- **Deliveries**

On June 7, 2018, Navios Partners took delivery of the Navios Altair I, a 2006-built Panamax vessel of 74,475 dwt, acquired from an unrelated third party for a purchase price of \$11.0 million.

On May 21, 2018, Navios Partners took delivery of the Navios Symmetry, a 2006-built Panamax vessel of 74,381 dwt, acquired from an unrelated third party, for a purchase price of \$11.0 million.

On May 9, 2018, Navios Partners took delivery of the Navios Apollon I, a 2005-built Panamax vessel of 87,052 dwt, acquired from an unrelated third party, for a purchase price of approximately \$13.0 million.

Sale of YM Unity and YM Utmost

On July 2, 2018, Navios Partners sold to its affiliate, Navios Maritime Containers Inc. (“Navios Containers”) the YM Unity and the YM Utmost, two 2006-built containerships of 8,204 TEU each, for a sale price of \$67.0 million. The loss on sale of the vessels amounted to \$37.9 million and was recognized in the second quarter of 2018. Navios Partners used a portion of the sale proceeds to repay \$20.2 million of its outstanding debt. As a result of the sales, the YM Unity and the YM Utmost were released from security of the Term Loan B Facility. In exchange, four drybulk vessels and \$4.0 million in cash substituted the two vessels as collateral to the Term Loan B Facility.

Sale of Containerships

On June 11, 2018, Navios Partners agreed to sell the Hyundai Hongkong, a 2006-built, 6,800 TEU containership to its affiliate, Navios Containers, for a sale price of approximately \$36.0 million. The vessel is expected to be delivered to Navios Containers in the third quarter of 2018.

Navios Partners also granted options to Navios Containers to acquire four additional 2006-built, 6,800 TEU containerships (the Hyundai Singapore, the Hyundai Busan, the Hyundai Shanghai and the Hyundai Tokyo) for a purchase price of \$36.0 million per vessel. Each of the four vessels are sister ships to the Hyundai Hongkong and have the same time charter employment in place.

All of the acquisitions are subject to certain conditions, and there can be no assurances that these acquisitions will occur in whole or in part.

The transaction was approved by the Conflicts Committee of the Board of Directors of Navios Partners.

Cash Distribution

The Board of Directors of Navios Partners declared a cash distribution for the second quarter of 2018 of \$0.02 per unit. The cash distribution is payable on August 10, 2018 to all unitholders of record as of August 7, 2018.

Our Charters

We generate revenues by charging our customers for the use of our vessels to transport their dry cargos. In general, the vessels in our fleet are chartered-out under time charters, which range in length up to ten years at inception. From time to time, we operate vessels in the spot market until the vessels have been chartered under longer-term charters.

For the six month period ended June 30, 2018, our customers representing 10% or more of total revenues were Hyundai Merchant Marine Co., Ltd. ("HMM") and Yang Ming Marine Transport Corporation ("Yang Ming") which accounted for approximately 25.3% and 11.3%, respectively, of total revenues. For the year ended December 31, 2017, our customers representing 10% or more of total revenues were HMM and Yang Ming, which accounted for 26.8% and 12.0%, respectively, of total revenues. We believe that the combination of the long-term nature of our charters (which provide for the receipt of a fixed fee for the life of the charter) and our management agreement with the Manager, (which provides for a fixed management fee until December 31, 2019), provides us with a strong base of stable cash flows.

Our revenues are driven primarily by the number of vessels in the fleet, the number of days during which such vessels operate and the amount of daily charter hire rates that the vessels earn under charters, which, in turn, are affected by a number of factors, including:

- the duration of the charters;
- the level of spot and long-term market rates at the time of charters;
- decisions relating to vessel acquisitions and disposals;
- the amount of time spent positioning vessels;
- the amount of time that vessels spend in dry dock undergoing repairs and upgrades;
- the age, condition and specifications of the vessels; and
- the aggregate level of supply and demand in the dry cargo shipping industry.

Time charters are available for varying periods, ranging from a single trip (spot charter) to long-term which may be many years. In general, a long-term time charter assures the vessel owner of a consistent stream of revenue. Operating the vessel in the spot market affords the owner greater spot market opportunity, which may result in high rates when vessels are in high demand or low rates when vessel availability exceeds demand. We intend to operate our vessels in the long-term charter market. Vessel charter rates are affected by world economics, international events, weather conditions, strikes, governmental policies, supply and demand and many other factors that might be beyond our control. Please read "Risk Factors" in our 2017 Annual Report on Form 20-F for a discussion of certain risks inherent in our business.

We could lose a customer or the benefits of a charter if:

- the customer fails to make charter payments because of its financial inability, disagreements with us or otherwise;

[Table of Contents](#)

- the customer exercises certain rights to terminate the charter of the vessel;
- the customer terminates the charter because we fail to deliver the vessel within a fixed period of time, the vessel is lost or damaged beyond repair, there are serious deficiencies in the vessel or prolonged periods of off-hire, or we default under the charter; or
- a prolonged force majeure event affecting the customer, including damage to or destruction of relevant production facilities, war or political unrest prevents us from performing services for that customer.

Under some of our time charters, either party may terminate the charter contract in the event of war in specified countries or in locations that would significantly disrupt the free trade of the vessel. Some of the time charters covering our vessels require us to return to the charterer, upon the loss of the vessel, all advances paid by the charterer but not earned by us.

Trends and Factors Affecting Our Future Results of Operations

We believe the principal factors that will affect our future results of operations are the economic, regulatory, political and governmental conditions that affect the shipping industry generally and that affect conditions in countries and markets in which our vessels engage in business. Please read “Risk Factors” in our 2017 Annual Report on Form 20-F for a discussion of certain risks inherent in our business.

- (1) **Available days:** Available days for the fleet represent total calendar days the vessels were in Navios Partners' possession for the relevant period after subtracting off-hire days associated with scheduled repairs, dry dockings or special surveys and ballast days relating to voyages. The shipping industry uses available days to measure the number of days in a relevant period during which a vessel is capable of generating revenues.
- (2) **Operating days:** Operating days are the number of available days in the relevant period less the aggregate number of days that the vessels are off-hire due to any reason, including unforeseen circumstances. The shipping industry uses operating days to measure the aggregate number of days in a relevant period during which vessels actually generate revenues.
- (3) **Fleet utilization:** Fleet utilization is the percentage of time that Navios Partners' vessels were available for revenue generating available days, and is determined by dividing the number of operating days during a relevant period by the number of available days during that period. The shipping industry uses fleet utilization to measure efficiency in finding employment for vessels and minimizing the amount of days that its vessels are off-hire for reasons other than scheduled repairs, dry dockings or special surveys.
- (4) **TCE rate:** Time Charter Equivalent rate per day ("TCE") is defined as voyage and time charter revenues less voyage expenses during a period divided by the number of available days during the period. The TCE rate per day is a standard shipping industry performance measure used primarily to present the actual daily earnings generated by vessels on various types of charter contracts for the number of available days of the fleet.

Period over Period Comparisons

For the Three Month Period ended June 30, 2018 compared to the Three Month Period ended June 30, 2017

Time charter and voyage revenues: Time charter and voyage revenues for Navios Partners for the three month period ended June 30, 2018 increased by \$11.3 million, or 24.0%, to \$58.2 million, as compared to \$46.9 million for the same period in 2017. The increase in time charter and voyage revenues was mainly attributable to: (i) the increase in revenue following the acquisition of seven vessels in 2017 and three vessels in 2018; and (ii) the increase in available days of the fleet to 3,366 days for the three month period ended June 30, 2018, as compared to 2,844 days for the three month period ended June 30, 2017, mainly due to the increased fleet. That increase was partially mitigated by the decrease in revenue due to the sales of the Navios Apollon and the Navios Gemini S in 2017.

Time charter and voyage revenues from Navios Containers for the period from April 28, 2017 (date of inception) to June 30, 2017 amounted to \$3.1 million. Available days of the fleet were 115 days for the period from April 28, 2017 (date of inception) to June 30, 2017 and TCE for the period amounted to \$26,968.

Time charter and voyage expenses: Time charter and voyage expenses for the three month period ended June 30, 2018 amounted to \$2.8 million, as compared to \$0 for the three month period ended June 30, 2017. The increase was mainly attributable to a: (i) \$1.6 million increase in bunkers expenses; (ii) \$0.6 million increase in loading and discharging port expenses related to the freight voyage in 2018; and (iii) \$0.6 million increase in brokers' commissions due to the increased fleet and other voyage expenses.

Direct vessel expenses: Direct vessel expenses, comprising of the amortization of dry dock and special survey costs of certain vessels in our fleet amounted to \$1.5 million for the three month period ended June 30, 2018, as compared to \$1.6 million for the three month period ended June 30, 2017.

Management fees: Management fees for the three month period ended June 30, 2018, increased by \$1.9 million, or 12.4%, to \$17.4 million, as compared to \$15.5 million for the same period in 2017. The increase was mainly attributable to a: (i) \$3.4 million increase in management fees paid to the Manager due to the increased number of owned vessels in Navios Partners' fleet; and (ii) \$0.1 million increase in management fees due to the increase in daily rate pursuant to the amended management agreement in November 2017. The increase was partially mitigated by a: (i) \$0.5 million decrease in management fees due to the sale of two vessels in 2017; (ii) \$0.7 million of management fees of Navios Containers for the period from April 28, 2017 (date of inception) to June 30, 2017; and (iii) \$0.4 million of management fees for the five Containerships from Rickmers Trust for the period from May 25, 2017 to June 8, 2017.

General and administrative expenses: General and administrative expenses increased by \$0.6 million to \$5.5 million for the three month period ended June 30, 2018, as compared to \$4.9 million for the three month period ended June 30, 2017. The increase was mainly due to a: (i) \$0.1 million increase related to equity compensation expense; (ii) \$0.2 million net increase in legal and professional fees, as well as audit fees and other administrative expenses; and (iii) \$0.4 million increase in administrative fees paid to the Manager mainly due to the increased number of vessels in Navios Partners' fleet. The increase was partially mitigated by a \$0.1 million general and administrative expenses of Navios Containers included for the period from April 28, 2017 (date of inception) to June 30, 2017.

Depreciation and amortization: Depreciation and amortization amounted to \$14.4 million for the three month period ended June 30, 2018, as compared to \$18.7 million for the three month period ended June 30, 2017. The decrease of \$4.3 million was mainly attributable to: (i) a \$2.2 million decrease in amortization of the Navios Aurora II favorable lease intangible which was fully amortized during the fourth quarter of 2017; (ii) a \$1.3 million amortization expense of Navios Containers intangibles for the period from April 28, 2017 (date of inception) to June 30, 2017; (iii) an \$0.8 million amortization expense of the intangibles for the five MOL Containerships for the period from May 25, 2017 to June 8, 2017; (iv) an \$0.8 million decrease in depreciation expense due to the committed sale of the YM Unity and the YM Utmost in July 2018; (v) a \$0.6 million decrease in depreciation expense of one of our vessels as a result of the impairment test performed in the fourth quarter of the fiscal year 2017; and (vi) a \$0.4 million decrease in depreciation expense due to the sale of the Navios Gemini S in December 2017. The above decrease was partially mitigated by a \$1.7 million increase in depreciation expense due to the delivery of seven vessels in 2017 and three vessels in 2018.

[Table of Contents](#)

Depreciation of vessels is calculated using an estimated useful life of 25 and 30 years for drybulk and containerships, respectively, from the date the vessel was originally delivered from the shipyard. Intangible assets are amortized over the contract periods, which range from one to ten years, at inception.

Vessel impairment losses: An impairment loss of \$37.9 million was recorded in relation to the YM Unity and the YM Utmost, which were held for sale as of June 30, 2018. There was no impairment loss for the corresponding interim period of the previous year. Navios Partners performed step one of the impairment assessment for the vessels as of December 31, 2017. The undiscounted projected net operating cash flows exceeded the carrying value together with the carrying value of deferred drydock and special survey costs related to these vessels.

Interest expense and finance cost, net: Interest expense and finance cost, net for the three month period ended June 30, 2018 increased by \$2.6 million or 32.5% to \$10.8 million, as compared to \$8.1 million for the three month period ended June 30, 2017. The increase was mainly due to the increase of the weighted average interest rate for the three month period ended June 30, 2018 to 6.87% from 5.87% for the same period in 2017. Navios Partners' average loan balance amounted to \$506.7 million for the three month period ended June 30, 2018 as compared to \$445.5 million for the same period of 2017.

The above decrease was partially mitigated by a \$0.2 million increase in other miscellaneous income.

Other expense: Other expense for the three month period ended June 30, 2018 amounted to \$0.3 million as compared to \$0.5 million for the three month period ended June 30, 2017.

Liquidity and Capital Resources

In addition to distributions on our units, our primary short-term liquidity needs are to fund general working capital requirements, cash reserve requirements including those under our credit facilities and debt service, while our long-term liquidity needs primarily relate to expansion and investment capital expenditures and other maintenance capital expenditures and debt repayment. Expansion capital expenditures are primarily for the purchase or construction of vessels to the extent the expenditures increase the operating capacity of or revenue generated by our fleet, while maintenance capital expenditures primarily consist of drydocking expenditures and expenditures to replace vessels in order to maintain the operating capacity of or revenue generated by our fleet. Investment capital expenditures are those capital expenditures that are neither maintenance capital expenditures nor expansion capital expenditures. We anticipate that our primary sources of funds for our short-term liquidity needs will be cash flows from our equity offerings, operations, proceeds from asset sales, long-term bank borrowings and other debt raisings. As of June 30, 2018, Navios Partners' current assets totaled \$137.9 million, while current liabilities totaled \$71.8 million, resulting in a positive working capital position of \$66.2 million. Generally, our long-term sources of funds derive from cash from operations, long-term bank borrowings and other debt or equity financings to fund acquisitions and expansion and investment capital expenditures, including opportunities we may pursue under the Omnibus Agreement. We cannot assure you that we will be able to secure adequate financing or to obtain additional funds on favorable terms, to meet our liquidity needs.

Cash deposits and cash equivalents in excess of amounts covered by government provided insurance are exposed to loss in the event of non-performance by financial institutions. Navios Partners does maintain cash deposits and equivalents in excess of government provided insurance limits. Navios Partners also minimizes exposure to credit risk by dealing with a diversified group of major financial institutions.

Navios Partners' cash forecast indicates that it will generate sufficient cash during the next twelve months from August 2, 2018, to make the required principal and interest payments on its indebtedness, provide for the normal working capital requirements of the business and remain in a positive working capital position through twelve months from August 2, 2018.

Credit Facilities

As of June 30, 2018, the total borrowings, net of deferred finance fees and discount under the Navios Partners' credit facilities, were \$494.5 million.

Term Loan B Facility: In June 2013, Navios Partners completed the issuance of the \$250.0 million Term Loan B Facility. On October 31, 2013 and November 1, 2013, Navios Partners completed the issuance of a \$189.5 million add-on to its existing Term Loan B Facility.

On March 14, 2017, Navios Partners completed the issuance of a new \$405.0 million Term Loan B Facility. The new Term Loan B Facility bears an interest rate of LIBOR plus 500 bps, it is set to mature on September 14, 2020 and is repayable in equal quarterly installments of 1.25% of the initial principal amount of the Term Loan B Facility. Navios Partners used the net proceeds of the new Term Loan B Facility to: (i) refinance its prior Term Loan B Facility; and (ii) pay fees and expenses related to the new Term Loan B Facility. Following the refinancing of the Term Loan B Facility, an amount of \$1.9 million and \$1.3 million, was written-off from the deferred finance fees and discount, respectively. On August 10, 2017, Navios Partners completed the issuance of a \$53.0 million add-on to its existing Term Loan B Facility. The add-on to the new Term Loan B Facility bore the same terms as the Term Loan B Facility. Navios Partners used the net proceeds to partially finance the acquisition of three vessels.

The Term Loan B Facility is secured by first priority mortgages covering certain vessels owned by subsidiaries of Navios Partners, in addition to other collateral, and guaranteed by each subsidiary of Navios Partners.

The Term Loan B Facility requires maintenance of a loan to value ratio of 0.8 to 1.0, and other restrictive covenants customary for facilities of this type (subject to negotiated exceptions and baskets), including restrictions on indebtedness, liens, acquisitions and investments, restricted payments and dispositions. The Term Loan B Facility also provides for customary events of default, prepayment and cure provisions.

As of June 30, 2018, the outstanding balance of the Term Loan B Facility was \$421.3 million, net of discount of \$8.7 million, and is repayable in eight quarterly installments of \$5.7 million with a final payment of \$384.1 million on the last repayment date. The final maturity date is September 14, 2020.

BNP Credit Facility: On June 26, 2017, Navios Partners entered into a new credit facility with BNP PARIBAS (the “BNP Credit Facility”) of up to \$32.0 million (divided into two tranches) in order to finance a portion of the purchase price of the Navios Ace and the Navios Sol. Cash used in investing activities of \$48.4 million for the six month period ended June 30, 2018 was mainly due to: (i) a \$36.3 million paid for the acquisition of the Navios Apollon I, the Navios Symmetry and the Navios Altair I delivered within the second quarter of 2018; and (ii) a \$14.5 million investment in Navios Containers on March 13, 2018. The above decrease was partially mitigated by a \$2.3 million of proceeds from the note receivable related to the sale of the MSC Cristina.

(“Navios Europe II”); (iii) a \$0.3 million loan granted to Navios Europe Inc. This overall increase was partially offset by: (i) loan repayments of \$16.7 million; (ii) a payment of a total cash distribution of \$3.4 million; and (iii) a payment of \$0.2 million of deferred finance fees relating to the March 2018 Credit Facility.

EBITDA and Adjusted EBITDA

EBITDA represents net (loss)/ income attributable to Navios Partners' unitholders before interest and finance costs, before depreciation and amortization (including intangible accelerated amortization) and income taxes. Adjusted EBITDA represents EBITDA before equity compensation expense, loss on sale of vessel, impairment losses and allowance for doubtful accounts, reactivation costs and gain on change in control. Navios Partners uses Adjusted EBITDA as a liquidity measure and reconcile EBITDA and Adjusted EBITDA to net cash provided by/(used in) operating activities, the most comparable U.S. GAAP liquidity measure. EBITDA in this document is calculated as follows: net cash provided by/(used in) operating activities adding back, when applicable and as the case may be, the effect of (i) net (increase)/decrease in operating assets, (ii) net (decrease)/increase in operating liabilities, (iii) net interest cost, (iv) amortization and write-off of deferred finance charges and other related expenses, (v) allowance for doubtful accounts, (vi) equity in net earnings of affiliated companies, (vii) payments for dry dock and special survey costs, (viii) gain/(loss) on sale of assets/subsidiaries, (ix) impairment charges, (x) non-cash accrued interest income and amortization of deferred revenue, (xi) gain/(loss) on debt repayments, (xii) equity compensation expense, (xiii) gain on change in control; (xiv) noncontrolling interest; and (xv) non-cash accrued interest income from receivable from affiliates. Navios Partners believes that EBITDA and Adjusted EBITDA are each the basis upon which liquidity can be assessed and presents useful information to investors regarding Navios Partners' ability to service and/or incur indebtedness, pay capital expenditures, meet working capital requirements and make cash distributions. Navios Partners also believes that EBITDA and Adjusted EBITDA are used: (i) by potential lenders to evaluate potential transactions; (ii) to evaluate and price potential acquisition candidates; and (iii) by securities analysts, investors and other interested parties in the evaluation of companies in our industry.

EBITDA and Adjusted EBITDA have limitations as an analytical tool, and should not be considered in isolation or as a substitute for the analysis of Navios Partners' results as reported under U.S. GAAP. Some of these limitations are: (i) EBITDA and Adjusted EBITDA do not reflect changes in, or cash requirements for, working capital needs; and (ii) although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may have to be replaced in the future. EBITDA and Adjusted EBITDA do not reflect any cash requirements for such capital expenditures. Because of these limitations, EBITDA and Adjusted EBITDA should not be considered as a principal indicator of Navios Partners' performance. Furthermore, our calculation of EBITDA and Adjusted EBITDA may not be comparable to that reported by other companies due to differences in methods of calculation.

[Table of Contents](#)

EBITDA of Navios Partners for the three month period ended June 30, 2018 was negatively affected by the accounting effect of a: (i) \$37.9 million impairment loss on the sale of the YM Unity and the YM Utmost; and (ii) \$0.6 million equity compensation expense. EBITDA of Navios Partners for the three month period ended June 30, 2017 was negatively affected by the accounting effect of a \$0.5 million equity compensation expense. Excluding these items, Adjusted EBITDA increased by \$4.4 million to \$34.7 million for the three month period ended June 30, 2018, as compared to \$30.3 million for the same period in 2017. The increase in Adjusted EBITDA was primarily due to: (i) an \$11.3 million increase in revenue; (ii) a \$0.3 million decrease in other expenses; and (iii) a \$1.6 million increase in equity in net earnings of affiliated companies. The above increase was partially mitigated by a: (i) \$2.8 million increase in time charter and voyage expenses; (ii) \$2.6 million increase in management fees due to the increased fleet; (iii) \$0.6 million increase in general and administrative expenses; and (iv) \$2.8 million decrease in other income.

EBITDA of Navios Containers was \$2.3 million for the period from April 28, 2017 (date of inception) to June 30, 2017.

EBITDA of Navios Partners for the six month period ended June 30, 2018 was negatively affected by the accounting effect of a: (i) \$37.9 million impairment loss on the sale of the YM Unity and the YM Utmost; and (ii) \$1.2 million equity compensation expense. EBITDA of Navios Partners for the six month period ended June 30, 2017 was negatively affected by the accounting effect of a: (i) \$1.5 million allowance for doubtful accounts; (ii) \$1.3 million loss related to the sale of the MSC Cristina and; (iii) \$0.9 million equity compensation expense. Excluding these items, Adjusted EBITDA increased by \$10.0 million to \$66.2 million for the six month period ended June 30, 2018, as compared to \$56.2 million for the same period in 2017. The increase in Adjusted EBITDA was primarily due to a: (i) \$21.9 million increase in revenue; and (ii) \$2.7 million increase in equity in net earnings of affiliated companies. The above increase was partially mitigated by a: (i) \$3.1 million increase in time charter and voyage expenses; (ii) \$5.0 million increase in management fees due to the increased fleet; (iii) \$0.8 million increase in general and administrative expenses; (iv) \$5.3 million decrease in other income; and (v) \$0.4 million increase in other expenses.

EBITDA of Navios Containers was \$2.3 million for the period from April 28, 2017 (date of inception) to June 30, 2017.

Operating Surplus

Operating Surplus represents net income adjusted for depreciation and amortization expense, non-cash interest expense, non-cash interest income, equity compensation expense, estimated maintenance and replacement capital expenditures and one-off items. Maintenance and replacement capital expenditures are those capital expenditures required to maintain over the long term the operating capacity of, or the revenue generated by, Navios Partners' capital assets.

Operating Surplus is a quantitative measure used in the publicly-traded partnership investment community to assist in evaluating a partnership's ability to make quarterly cash distributions. Operating Surplus is not required by accounting principles generally accepted in the United States and should not be considered a substitute for net income, cash flow from operating activities and other operations or cash flow statement data prepared in accordance with accounting principles generally accepted in the United States or as a measure of profitability or liquidity.

Available Cash

Available Cash generally means, for each fiscal quarter, all cash on hand at the end of the quarter:

- less the amount of cash reserves established by the Board of Directors to:
- provide for the proper conduct of Navios Partners' business (including reserve for maintenance and replacement capital expenditures);
- comply with applicable law, any of Navios Partners' debt instruments, or other agreements; or
- provide funds for distributions to the unitholders and to the general partner for any one or more of the next four quarters;
- plus all cash on hand on the date of determination of available cash for the quarter resulting from working capital borrowings made after the end of the quarter. Working capital borrowings are generally borrowings that are made under any revolving credit or similar agreement used solely for working capital purposes or to pay distributions to partners.

Available Cash is a quantitative measure used in the publicly traded partnership investment community to assist in evaluating a partnership's ability to make quarterly cash distributions. Available Cash is not required by U.S. GAAP and should not be considered as an alternative to net income or any other indicator of Navios Partners' performance required by U.S. GAAP.

Borrowings

Navios Partners' long-term third party borrowings are presented under the caption "Long-term debt, net" and "Current portion of long-term debt, net". As of June 30, 2018 and December 31, 2017, total debt, net amounted to \$494.5 million and \$493.5 million, respectively. The current portion of long-term debt, net amounted to \$45.0 million and \$26.6 million at each of June 30, 2018 and December 31, 2017, respectively.

Capital Expenditures

Navios Partners finances its capital expenditures with cash flow from operations, equity raisings, long-term bank borrowings and other debt raisings. Capital expenditures for each of the six month periods ended June 30, 2018 and 2017 amounted to \$36.3 million and \$11.8 million, respectively. The reserves for estimated maintenance and replacement capital expenditures for the three and six month periods ended June 30, 2018 were \$6.4 million and \$12.4 million, respectively. The reserves for estimated maintenance and replacement capital expenditures for the three and six month periods ended June 30, 2017 were \$3.5 million and \$6.7 million, respectively.

Maintenance for our vessels and expenses related to drydocking expenses are reimbursed at cost by Navios Partners to our Manager under the amended management agreement. In October 2011, Navios Partners extended the duration of its existing Management Agreement with the Manager until December 31, 2017. In each of October 2013, August 2014, February 2015 and February 2016, Navios Partners amended its existing Management Agreement with the Manager to fix the fees for ship management services of its owned fleet, excluding drydocking expenses, which are reimbursed at cost by Navios Partners at: (a) \$4,100 daily rate per Ultra-Handymax vessel; (b) \$4,200 daily rate per Panamax vessel; (c) \$5,250 daily rate per Capesize vessel; (d) \$6,700 daily rate per Containership of TEU 6,800; (e) \$7,400 daily rate per Containership of more than TEU 8,000; and (f) \$8,750 daily rate per very large Containership of more than TEU 13,000 through December 31, 2017. In November 2017, Navios Partners extended the duration of its existing Management Agreement with the Manager until December 31, 2022 and the fixed rate for ship management services of its owned fleet through December 31, 2019, effective from January 1, 2018. The management fees, excluding drydocking expenses will be: (a) \$4,225 daily rate per Ultra-Handymax vessel; (b) \$4,325 daily rate per Panamax vessel; (c) \$5,250 daily rate per Capesize vessel; (d) \$6,700 daily rate per Containership of TEU 6,800; (e) \$7,400 daily rate per Containership of more than TEU 8,000; and (f) \$8,750 daily rate per very large Containers vessel of more than TEU 13,000.

Maintenance and Replacement Capital Expenditures Reserve

We estimate that our annual replacement reserve for the year ending December 31, 2018 will be approximately \$25.3 million, for replacing our vessels at the end of their useful lives.

The amount for estimated replacement capital expenditures attributable to future vessel replacement was based on the following assumptions: (i) current market price to purchase a five year old vessel of similar size and specifications; (ii) a 25-year useful life for drybulk vessels and a 30-year useful life for containerships; and (iii) a relative net investment rate.

The amount for estimated maintenance capital expenditures attributable to future vessel drydocking and special survey was based on certain assumptions including the remaining useful life of the owned vessels of our fleet, market costs of drydocking and special survey and a relative net investment rate.

Our Board of Directors, with the approval of the Conflicts Committee, may determine that one or more of our assumptions should be revised, which could cause our Board of Directors to increase or decrease the amount of estimated maintenance and replacement capital expenditures. The actual cost of replacing the vessels in our fleet will depend on a number of factors, including prevailing market conditions, charter hire rates and the availability and cost of financing at the time of replacement. We may elect to finance some or all of our maintenance and replacement capital expenditures through the issuance of additional common units, which could be dilutive to existing unitholders.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have, a current or future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Limitations on Cash Distributions and Our Ability to Change Our Cash Distribution Policy

There is no guarantee that unitholders will receive quarterly distributions from us and beginning with the quarter ending December 31, 2015, our Board of Directors elected to suspend distributions on our common units in order to preserve cash and improve our liquidity. In March 2018, the Company’s Board of Directors announced a new distribution policy under which it intends to pay quarterly cash distribution in the amount of \$0.02 per unit, or \$0.08 annually. The Company announced the first quarterly distribution of \$0.02 per unit for the first quarter of 2018, which was paid on May 14, 2018 to unitholders of record as of May 10, 2018. On July 25, 2018, the Company announced the quarterly distribution of \$0.02 per unit for the second quarter of 2018. The cash distribution is payable on August 10, 2018 to all unitholders of record as of August 7, 2018.

Our distribution policy is subject to certain restrictions and may be changed at any time, including:

- Our unitholders have no contractual or other legal right to receive distributions other than the obligation under our partnership agreement to distribute available cash on a quarterly basis, which is subject to the broad discretion of our Board of Directors to establish reserves and other limitations.
- While our partnership agreement requires us to distribute all of our available cash, our partnership agreement, including provisions requiring us to make cash distributions contained therein, may be amended. Although during the subordination period, with certain exceptions, our partnership agreement could not have been amended without the approval of non-affiliated common unitholders, however, our partnership agreement can be amended with the approval of a majority of the outstanding common units now that the subordination period has ended. Upon the closing of the IPO, Navios Holdings did not own any of our outstanding common units and owned 100.0% of our outstanding subordinated units.
- Even if our cash distribution policy is not modified or revoked, the amount of distributions we pay under our cash distribution policy and the decision to make any distribution is determined by our Board of Directors, taking into consideration the terms of our partnership agreement.
- Under Section 51 of the Marshall Islands Limited Partnership Act, we may not make a distribution to our unitholders if the distribution would cause our liabilities to exceed the fair value of our assets.
- We may lack sufficient cash to pay distributions to our unitholders due to decreases in net revenues or increases in operating expenses, principal and interest payments on outstanding debt, tax expenses, working capital requirements, maintenance and replacement capital expenditures or anticipated cash needs.
- Our distribution policy is affected by restrictions on distributions under our credit facilities that we entered into in connection with the closing of the IPO. Specifically, our credit facilities contain material financial tests that must be satisfied and we will not pay any distributions that will cause us to violate our credit facilities or other debt instruments. Should we be unable to satisfy these restrictions included in our credit facilities or if we are otherwise in default under our credit facilities, our ability to make cash distributions to unitholders, notwithstanding our cash distribution policy, would be materially adversely affected.
- If we make distributions out of capital surplus, as opposed to Operating Surplus, such distributions will constitute a return of capital and will result in a reduction in the minimum quarterly distribution and the target distribution levels. We do not anticipate that we will make any distributions from capital surplus.

[Table of Contents](#)

Our ability to make distributions to our unitholders depends on the performance of our subsidiaries and their ability to distribute funds to us. The ability of our subsidiaries to make distributions to us may be restricted by, among other things, the provisions of existing and future indebtedness, applicable partnership and limited liability company laws and other laws and regulations.

Quarterly Distribution

There is no guarantee that we will pay the quarterly distribution on the common units in any quarter. The amount of distributions paid under our policy and the decision to make any distribution is determined by our Board of Directors, taking into consideration the terms of our partnership agreement. We are prohibited from making any distributions to unitholders if it would cause an event of default, or an event of default exists, under our existing credit facilities.

Quarterly distributions were paid by the Company through September 2015. For the quarter ended December 31, 2015, the Company's Board of Directors determined to suspend payment of the Company's quarterly distributions in order to preserve cash and improve our liquidity. In March 2018, the Company's Board of Directors announced a new distribution policy under which it intends to pay quarterly cash distribution in the amount of \$0.02 per unit, or \$0.08 annually. The Company announced the first quarterly distribution of \$0.02 per unit for the first quarter of 2018, which was paid on May 14, 2018 to unitholders of record as of May 10, 2018. On July 25, 2018, the Company announced the quarterly distribution of \$0.02 per unit for the second quarter of 2018. The cash distribution is payable on August 10, 2018 to all unitholders of record as of August 7, 2018.

Incentive Distribution Rights

The following description of our incentive distribution rights reflects such rights in the event the distributions are reinstated and the indicated levels are achieved, of which there can be no assurance. Incentive distribution rights represent the right to receive an increasing percentage of quarterly distributions of available cash from Operating Surplus after the minimum quarterly distribution and the target distribution levels have been achieved. Our general partner currently holds the incentive distribution rights, but may transfer these rights separately from its general partner interest, subject to restrictions in the partnership agreement.

The following table illustrates the percentage allocations of the additional available cash from Operating Surplus among the unitholders and our general partner up to the various target distribution levels. The amounts set forth under "Marginal Percentage Interest in Distributions" are the percentage interests of the unitholders and our general partner in any available cash from Operating Surplus we distribute up to and including the corresponding amount in the column "Total Quarterly Distribution Target Amount," until available cash from Operating Surplus we distribute reaches the next target distribution level, if any. The percentage interests shown for the unitholders and our general partner for the minimum quarterly distribution are also applicable to quarterly distribution amounts that are less than the minimum quarterly distribution. The percentage interests shown for our general partner assume that our general partner maintains its 2.0% general partner interest and assume our general partner has not transferred the incentive distribution rights.

	Total Quarterly Distribution Target Amount	Marginal Percentage Interest in Distributions	
		Common Unitholders	General Partner
Minimum Quarterly Distribution	up to \$ 0.35	98%	2%
First Target Distribution	up to \$ 0.4025	98%	2%
Second Target Distribution	above \$0.4025 up to \$0.4375	85%	15%
Third Target Distribution	above \$ 0.4375 up to \$0.525	75%	25%
Thereafter	above \$ 0.525	50%	50%

Quantitative and Qualitative Disclosures about Market Risks

Foreign Exchange Risk

Our functional and reporting currency is the U.S. dollar. We engage in worldwide commerce with a variety of entities. Although our operations may expose us to certain levels of foreign currency risk, our transactions are predominantly U.S. dollar denominated. Transactions in currencies other than U.S. dollars are translated at the exchange rate in effect at the date of each transaction. Differences in exchange rates during the period between the date a transaction denominated in a foreign currency is consummated and the date on which it is either settled or translated, are recognized.

Interest Rate Risk

Borrowings under our credit facilities bear interest at rate based on a premium over U.S. \$ LIBOR. Therefore, we are exposed to the risk that our interest expense may increase if interest rates rise. For the six month period ended June 30, 2018, we paid interest on our outstanding debt at a weighted average interest rate of 6.63%. A 1% increase in LIBOR would have increased our interest expense for the six month period ended June 30, 2018 by \$2.6 million. For the six month period ended June 30, 2017, we paid interest on our outstanding debt at a weighted average interest rate of 5.61%. A 1% increase in LIBOR would have increased our interest expense for the six month period ended June 30, 2017 by \$2.2 million.

Concentration of Credit Risk

Financial instruments, which potentially subject us to significant concentrations of credit risk, consist principally of trade accounts receivable. We closely monitor our exposure to customers for credit risk. We have policies in place to ensure that we trade with customers with an appropriate credit history.

For the six month period ended June 30, 2018, our customers representing 10% or more of total revenues were HMM and Yang Ming which accounted for approximately 25.3% and 11.3%, respectively, of total revenues. For the year ended December 31, 2017, Navios Partners' customers representing 10% or more of total revenues were HMM and Yang Ming which accounted for approximately 26.8% and 12.0%, respectively, of total revenues. No other customers accounted for 10% or more of total revenue for any of the years presented.

Following the termination of the credit default insurance through its third party insurer, Navios Partners entered into an agreement (the "Navios Holdings Guarantee") by which Navios Holdings will provide supplemental credit default insurance with a maximum cash payment of \$20.0 million. The final settlement of the amount due will take place at anytime but in no case later than December 31, 2019, in accordance with a letter of agreement effective as of December 29, 2017. During each of the three and six month periods ended June 30, 2018, the Company did not submit any claims to Navios Holdings for charterers' default under this agreement. During each of the three and six month periods ended June 30, 2017, the Company submitted claims to Navios Holdings for charterers' default under this agreement for a total amount in each period of \$2.3 million and \$4.5 million, respectively, net of applicable deductions, of which \$2.4 million and \$4.8 million, respectively, was recorded as "Other income". As of June 30, 2018, the Company recognized the fair value of the claim amounted to \$19.4 million, including accrued interest and discount unwinding of \$0.1 million and \$0.2 million for the three and six month periods ended June 30, 2018, respectively, presented under the caption "Amounts due from related parties-long term" in the balance sheet.

If we lose a charter, we may be unable to re-deploy the related vessel on terms as favorable to us due to the long-term nature of most charters and the cyclical nature of the industry or we may be forced to charter the vessel on the spot market at then market rates which may be less favorable than the charter that has been terminated. If we are unable to re-deploy a vessel for which the charter has been terminated, we will not receive any revenues from that vessel, but we may be required to pay expenses necessary to maintain the vessel in proper operating condition. If we lose a vessel, any replacement or newbuilding would not generate revenues during its construction acquisition period, and we may be unable to charter any replacement vessel on terms as favorable to us as those of the terminated charter.

[Table of Contents](#)

Even if we successfully charter our vessels in the future, our charterers may go bankrupt or fail to perform their obligations under the charter agreements, they may delay payments or suspend payments altogether, they may terminate the charter agreements prior to the agreed-upon expiration date or they may attempt to renegotiate the terms of the charters. The permanent loss of a customer, time charter or vessel, or a decline in payments under our charters, could have a material adverse effect on our business, results of operations and financial condition and our ability to make cash distributions in the event we are unable to replace such customer, time charter or vessel. For further details, please read “Risk Factors” in our 2017 Annual Report on Form 20-F.

Inflation

Inflation has had a minimal impact on vessel operating expenses, drydocking expenses and general and administrative expenses. Our management does not consider inflation to be a significant risk to direct expenses in the current and foreseeable economic environment.

NOTE 1 – DESCRIPTION OF BUSINESS

Navios Maritime Partners L.P. (“Navios Partners” or the “Company”), is an international owner and operator of dry cargo vessels, formed on August 7, 2007 under the laws of the Republic of the Marshall Islands. Navios GP L.L.C. (the “General Partner”), a wholly owned subsidiary of Navios Maritime Holdings Inc. (“Navios Holdings”), was also formed on that date to act as the general partner of Navios Partners and received a 2.0% general partner interest in Navios Partners.

Navios Partners is engaged in the seaborne transportation services of a wide range of dry cargo commodities including iron ore, coal, grain, fertilizer and also containers, chartering its vessels under medium to longer-term charters. The operations of Navios Partners are managed by Navios ShipManagement Inc., a subsidiary of Navios Holdings (the “Manager”), from its offices in Piraeus, Greece, Singapore and Monaco.

Pursuant to the initial public offering (“IPO”) on November 16, 2007, Navios Partners entered into the following agreements:

- (a) a management agreement with the Manager (the “Management Agreement”), pursuant to which the Manager provides Navios Partners commercial and technical management services;
- (b) an administrative services agreement with the Manager (the “Administrative Services Agreement”), pursuant to which the Manager provides Navios Partners administrative services; and
- (c) an omnibus agreement with Navios Holdings (the “Omnibus Agreement”), governing, among other things, when Navios Partners and Navios Holdings may compete against each other as well as rights of first offer on certain drybulk carriers.

As of June 30, 2018, there were outstanding: 167,589,764 common units and 3,420,203 general partnership units. As of June 30, 2018, Navios Holdings owned a 20.2% interest in Navios Partners, which included a 2.0% general partner interest.

Navios Containers

Navios Maritime Containers Inc. (“Navios Containers”), an affiliate of the Company, was established in the Republic of the Marshall Islands on April 28, 2017. The Company is a growth vehicle dedicated to the container sector of the maritime industry. On June 12, 2017, Navios Containers also registered and began trading on the Norwegian Over-The-Counter Market under the ticker NMCI.

On June 8, 2017, Navios Containers closed its private placement and issued 10,057,645 shares for total gross proceeds of \$50,288 at a subscription price of \$5.00 per share. Navios Partners invested \$30,000 and received 59.7% of the equity, and Navios Holdings invested \$5,000 and received 9.9% of the equity of Navios Containers. Each of Navios Partners and Navios Holdings also received warrants, with a five-year term, for 6.8% and 1.7% of the equity, respectively. Navios Containers used the proceeds to acquire five 4,250 TEU vessels from Navios Partners for a total purchase price of \$64,000. These vessels, first acquired by Navios Partners from Rickmers Maritime Trust Pte. (“Rickmers Trust”), are employed on charters with a net daily charter rate of \$26,850. The charters expire in 2018 and early 2019. In addition, Navios Containers acquired all the rights under the acquisition agreements entered into between Navios Partners and Rickmers Trust to purchase the remaining nine vessels in the original 14-vessel container fleet.

On August 29, 2017, Navios Containers closed its private placement of 10,000,000 shares at a subscription price of \$5.00 per share, resulting in gross proceeds of \$50,000. Navios Partners invested \$10,000 and received 2,000,000 shares. Navios Partners also received warrants, with a five-year term, for 6.8% of the equity. As a result, from August 29, 2017, Navios Containers is considered an affiliate entity and the investment in Navios Containers is accounted for under the equity method due to the Company’s significant influence over Navios Containers.

On November 9, 2017, Navios Containers closed a private placement of 9,090,909 shares at a subscription price of \$5.50 per share, resulting in gross proceeds of approximately \$50,000. Navios Partners invested \$10,000 and received 1,818,182 shares. Navios Partners also received warrants, with a five-year term, for 6.8% of the newly issued equity.

On March 13, 2018, Navios Containers closed a private placement of 5,454,546 shares at a subscription price of \$5.50 per share, resulting in gross proceeds of approximately \$30,000. Navios Partners invested \$14,460 and received 2,629,095 shares and Navios Holdings invested \$500 and received 90,909 shares. Navios Partners and Navios Holdings also received 370,909 and 9,273 warrants, with a five-year term, respectively.

As of June 30, 2018, Navios Partners held 12,447,277 common shares and received 36.0% of the equity, and Navios Holdings held 1,090,909 common shares and received 3.2% of the equity of Navios Containers.

UNAUDITED CONDENSED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in thousands of U.S. Dollars except unit and per unit data)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of presentation: The accompanying interim condensed consolidated financial statements are unaudited, but, in the opinion of management, reflect all adjustments for a fair statement of Navios Partners' consolidated balance sheets, statement of partner's capital, statements of operations and cash flows for the periods presented. The results of operations for the interim periods are not necessarily indicative of results for the full year. The footnotes are condensed as permitted by the requirements for interim financial statements and accordingly, do not include information and disclosures required under United States generally accepted accounting principles ("U.S. GAAP") for complete financial statements. All such adjustments are deemed to be of a normal recurring nature. These interim financial statements should be read in conjunction with the Company's consolidated financial statements and notes included in Navios Partners' Annual Report for the year ended December 31, 2017 filed on Form 20-F with the U.S. Securities and Exchange Commission ("SEC").

Change in accounting principles: On January 1, 2018, the Company adopted ASU 2016-18, "Restricted Cash" ("ASU 2016-18"), which updated ASC Topic 230, "Statement of Cash Flows." ASU 2016-18 required companies to include restricted cash and restricted cash equivalents with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The recognition and measurement guidance for restricted cash is not affected. The Company applied this guidance retrospectively to all prior periods presented in the Company's financial statements. The reclassification of restricted cash in the statement of cash flows does not impact net income as previously reported or any prior amounts reported on the statements of comprehensive income, or balance sheet. The effect of the retrospective application of this change in accounting principle on the Company's statement of cash flows for the six month period ended June 30, 2017 resulted in a decrease in net cash provided by operating activities of \$444 and a decrease in net cash provided financing activities of \$985 with a corresponding decrease in cash and cash equivalents of \$1,429. (Please see Note 3).

(b) Principles of consolidation: The accompanying interim condensed consolidated financial statements include Navios Partners' wholly owned subsidiaries incorporated under the laws of Marshall Islands, Malta, and Liberia from their dates of incorporation or, for chartered-in vessels, from the dates charter-in agreements were in effect. All significant inter-company balances and transactions have been eliminated in Navios Partners' consolidated financial statements.

Navios Partners also consolidates entities that are determined to be variable interest entities ("VIE") as defined in the accounting guidance, if it determines that it is the primary beneficiary. A VIE is defined as a legal entity where either (i) equity interest holders as a group lack the characteristics of a controlling financial interest, including decision making ability and an interest in the entity's residual risks and rewards, (ii) the equity holders have not provided sufficient equity investment to permit the entity to finance its activities without additional subordinated financial support, or (iii) the voting rights of some investors are not proportional to their obligations to absorb the expected losses of the entity, their rights to receive the expected residual returns of the entity, or both and substantially all of the entity's activities either involve or are conducted on behalf of an investor that has disproportionately few voting rights.

Based on internal forecasts and projections that take into account reasonably possible changes in our trading performance, management believes that the Company has adequate financial resources to continue in operation and meet its financial commitments, including but not limited to capital expenditures and debt service obligations, for a period of at least twelve months from the date of issuance of these interim condensed consolidated financial statements. Accordingly, the Company continues to adopt the going concern basis in preparing its financial statements.

Investments in Affiliates: Affiliates are entities over which the Company generally has between 20% and 50% of the voting rights, or over which the Company has significant influence, but it does not exercise control. Investments in these entities are accounted for under the equity method of accounting. Under this method, the Company records an investment in the stock of an affiliate at cost, and adjusts the carrying amount for its share of the earnings or losses of the affiliate subsequent to the date of investment and reports the recognized earnings or losses in income. Dividends received from an affiliate reduce the carrying amount of the investment. The Company recognizes gains and losses in earnings for the issuance of shares by its affiliates, provided that the issuance of such shares qualifies as a sale of such shares. When the Company's share of losses in an affiliate equals or exceeds its interest in the affiliate, the Company does not recognize further losses, unless the Company has incurred obligations or made payments on behalf of the affiliate.

Revenue Recognition: On January 1, 2018, the Company adopted the provisions of ASC 606, Revenue from Contracts with Customers (ASC 606). The guidance provides a unified model to determine how revenue is recognized. In doing so, the Company makes judgments including identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price, and allocating the transaction price to each performance obligation. Revenue is recognized when (or as) the Company transfers promised goods or services to its customers in amounts that reflect the consideration to which the company expects to be entitled to in exchange for those goods or services, which occurs when (or as) the Company satisfies its contractual obligations and transfers control of the promised goods or services to its customers. Revenues are recognized to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In determining the appropriate amount of revenue to be recognized as it fulfills its obligations under its agreements, the Company performs the following steps: (i) identification of the promised goods or services in the contract; (ii) determination of whether the promised goods or services are performance obligations, including whether they are distinct in the context of the contract; (iii) measurement of the transaction price, including the constraint on variable consideration; (iv) allocation of the transaction price to the performance obligations based on estimated selling prices; and (v) recognition of revenue when (or as) the Company satisfies each performance obligation.

The Company's contract revenues from time chartering and pooling arrangements are governed by ASC 840 "Leases". Upon adoption of ASC 606, the timing and recognition of earnings from the pool arrangements and time charter contracts to which the Company is party did not change significantly from previous practice. As a result, the adoption of this standard had no effect on the Company's opening retained earnings, consolidated balance sheets and consolidated statements of operations.

The Company's revenues earned under voyage contracts (revenues for the transportation of cargo) were previously recognized ratably over the estimated relative transit time of each voyage. A voyage was deemed to commence when a vessel was available for loading and was deemed to end upon the completion of the discharge of the current cargo. Estimated losses on voyages are provided for in full at the time such losses become evident. Under a voyage charter, a vessel is provided for the transportation of specific goods between specific ports in return for payment of an agreed upon freight per ton of cargo. Upon adoption of ASC 606, the Company will recognize revenue ratably from port of loading to when the charterer's cargo is discharged as well as defer costs that meet the definition of "costs to fulfill a contract" and relate directly to the contract. During 2017, no freight voyages existed and therefore, there was no impact on the Company's results of operations, financial position or cash flows. Revenue from voyage contracts amounted to \$3,814 and \$0 for the six month periods ended June 30, 2018 and 2017, respectively.

Revenues from time chartering of vessels are accounted for as operating leases and are thus recognized on a straight-line basis as the average revenue over the rental periods of such charter agreements, as service is performed. A time charter involves placing a vessel at the charterers' disposal for a period of time during which the charterer uses the vessel in return for the payment of a specified daily hire rate. Under time charters, operating costs such as for crews, maintenance and insurance are typically paid by the owner of the vessel. Revenue from time chartering of vessels amounted to \$104,672 and \$88,765 for the six month periods ended June 30, 2018 and 2017, respectively.

Profit sharing revenues are calculated at an agreed percentage of the excess of the charterer's average daily income (calculated on a quarterly or half-yearly basis) over an agreed amount and accounted for on an accrual basis based on provisional amounts and for those contracts that provisional accruals cannot be made due to the nature of the profit share elements, these are accounted for on the actual cash settlement or when such revenue becomes determinable.

[Table of Contents](#)

For vessels operating in pooling arrangements, the Company earns a portion of total revenues generated by the pool, net of expenses incurred by the pool. The amount allocated to each pool participant vessel, including the Company's vessels, is determined in accordance with an agreed-upon formula, which is determined by points awarded to each vessel in the pool based on the vessel's age, design and other performance characteristics. Revenue under pooling arrangements is accounted for as variable rate operating leases on the accrual basis and is recognized when an agreement with the pool exists, price is fixed, service is provided and the collectability is reasonably assured. The allocation of such net revenue may be subject to future adjustments by the pool however, such changes are not expected to be material. The Company recognizes net pool revenue on a monthly and quarterly basis, when the vessel has participated in a pool during the period and the amount of pool revenue can be estimated reliably based on the pool report.

Revenue from vessels operating in pooling and profit sharing arrangements amounted to \$2,762 and \$3,664 for the six month periods ended June 30, 2018 and 2017, respectively.

Revenues are recorded net of address commissions. Address commissions represent a discount provided directly to the charterers based on a fixed percentage of the agreed upon charter or freight rate. Since address commissions represent a discount (sales incentive) on services rendered by the Company and no identifiable benefit is received in exchange for the consideration provided to the charterer, these commissions are presented as a reduction of revenue.

Adoption of new accounting standards: On January 1, 2018, the Company adopted ASU No. 2014-09, "Revenue from Contracts with Customers" and the related amendments ("ASC 606" or "the new revenue standard") using the modified retrospective method, requiring to recognize the cumulative effect of adopting this guidance as an adjustment to the 2018 opening balance of retained earnings and not retrospectively adjusting prior periods.

Under the new guidance, there is a five-step model to apply to revenue recognition. The five-steps consist of: (1) determination of whether a contract, an agreement between two or more parties that creates legally enforceable rights and obligations, exists; (2) identification of the performance obligations in the contract; (3) determination of the transaction price; (4) allocation of the transaction price to the performance obligations in the contract; and (5) recognition of revenue when (or as) the performance obligation is satisfied.

As a result of adoption, there was no cumulative impact to the Company's retained earnings at January 1, 2018. The comparative information has not been restated and continues to be reported under the accounting standards in effect for those periods. The Company expects the impact of the adoption of the new standard to be immaterial to its net income on an ongoing basis. In August 2016, the FASB issued Accounting Standards Update No. 2016-15, "Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments" ("ASU 2016-15"). This Update addresses eight specific cash flow issues with the objective of reducing the existing diversity in practice. The Company adopted the new guidance on January 1, 2018 and it did not have a material impact on the consolidated results of operations, financial condition, or cash flows.

Recent Accounting Pronouncements: In January 2017, FASB issued Accounting Standard Update No. 2017-03 "Accounting Changes and Error Corrections (Topic 250) and Investments-Equity Method and Joint Ventures (Topic 323)." The ASU amends the Codification for SEC staff announcements made at recent Emerging Issues Task Force (EITF) meetings. The SEC guidance that specifically relates to our Consolidate Financial Statement was from the September 2016 meeting, where the SEC staff expressed its expectations about the extent of disclosures registrants should make about the effects of the new FASB guidance as well as any amendments issued prior to adoption, on revenue (ASU 2014-09), leases (ASU 2016-02) and credit losses on financial instruments (ASU 2016-13) in accordance with SAB Topic 11.M. Registrants are required to disclose the effect that recently issued accounting standards will have on their financial statements when adopted in a future period. In cases where a registrant cannot reasonably estimate the impact of the adoption, then additional qualitative disclosures should be considered. The ASU incorporates these SEC staff views into ASC 250 and adds references to that guidance in the transition paragraphs of each of the three new standards. The adoption of this new accounting guidance did not have a material effect on the Company's Consolidated Financial Statements.

In February 2016, FASB issued ASU 2016-02, "Leases (Topic 842)". ASU 2016-02 will apply to both capital (or finance) leases and operating leases. According to ASU 2016-02, lessees will be required to recognize assets (right of use asset) and liabilities (lease liability) on the balance sheet for both types of leases – capital (or finance) leases and operating leases – with terms greater than 12 months. ASU 2016 – 02 is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early application is permitted.

This guidance requires companies to identify lease and non-lease components of a lease agreement. Lease components relate to the right to use the leased asset and non-lease components relate to payments for goods or services that are transferred separately from the right to use the underlying asset. Total lease consideration is allocated to lease and non-lease components on a relative standalone basis. The recognition of revenues related to lease components will be governed by ASC 842 while revenue related to non-lease components will be subject to ASC 606.

In January 2018, the FASB issued a proposed amendment to ASU 842, Leases, that would provide an entity the optional transition method to initially account for the impact of the adoption with a cumulative adjustment to accumulated deficit on the effective date of the ASU, January 1, 2019 rather than January 1, 2017, which would eliminate the need to restate amounts presented prior to January 1, 2019. In addition, this proposed amendment, lessors can elect, as a practical expedient, not to allocate the total consideration to lease and non-lease components based on their relative standalone selling prices. If adopted, this practical expedient will allow lessors to elect a combined single lease component presentation if (i) the timing and pattern of the revenue recognition of the combined single lease component is the same, and (ii) the related lease component and, the combined single lease component would be classified as an operating lease.

ASC 842 provides practical expedients that allow entities to not (i) reassess whether any expired or existing contracts are considered or contain leases; (ii) reassess the lease classification for any expired or existing leases; and (iii) reassess initial direct costs for any existing leases.

The Company plans to adopt the standard on January 1, 2019 and expects to elect the use of practical expedients. If the proposed amendment to ASU 842 is adopted, the Company would elect the transition method for adoption as described above.

The Company has not completed its analysis of this ASU. Based on a preliminary assessment, the Company is expecting that the adoption will not have a material effect on its financial statements since the Company is primarily a lessor and the changes are fairly minor. If the proposed practical expedient mentioned above is adopted and elected, goods and services embedded in the charter contract that qualify as non-lease components will be combined under a single lease component presentation. However, without the proposed practical expedient, the Company expects that it will continue to recognize the lease revenue component using an approach that is substantially equivalent to existing guidance. The components of the charter hire that are categorized as lease components will generally be a fixed rate per day with revenue recognized straight line over the lease contract. Other goods and services that are categorized as non-lease components will be recognized at either a point in time or over time based on the pattern of transfer of the underlying goods or services to our charterers.

The Company is continuing its assessment of other miscellaneous leases and may identify additional impacts this guidance will have on its consolidated financial statements and disclosures. The Company currently does not have any other miscellaneous leases that are greater than 12 months and the Company is the lessee that would be impacted by the adoption of this standard.

NOTE 3 – CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of the following:

	<u>June 30,</u> <u>2018</u>	<u>December 31,</u> <u>2017</u>
Cash and cash equivalents	\$40,577	\$ 24,047
Restricted cash	402	5,886

Short-term deposits and highly liquid funds relate to amounts held in banks for general financing purposes and represent deposits with an original maturity of less than three months.

Cash deposits and cash equivalents in excess of amounts covered by government-provided insurance are exposed to loss in the event of non-performance by financial institutions. Navios Partners does maintain cash deposits and equivalents in excess of government-provided insurance limits. Navios Partners also minimizes exposure to credit risk by dealing with a diversified group of major financial institutions.

Sale of Vessels

2017

On December 21, 2017, Navios Partners sold the Navios Gemini S to an unrelated third party for a net sale price of \$4,078. The aggregate net carrying amount of the vessel including the remaining carrying balance of dry dock and special survey costs of \$502 amounted to \$6,451 as at the date of sale.

On April 21, 2017, Navios Partners sold the Navios Apollon to an unrelated third party for a net sale price of \$4,750. The aggregate net carrying amount of the vessel including the remaining carrying balance of dry dock and special survey costs of \$782 amounted to \$14,758 as at the date of sale.

On January 12, 2017, Navios Partners sold the MSC Cristina to an unrelated third party for a net sale price of \$125,000. The aggregate net carrying amount of the vessel amounted to \$142,193 as at the date of sale. The loss on sale of the vessel was \$1,260 (see Note 18 — Other expense).

Vessel impairment losses

As of December 31, 2017, Navios Partners concluded that step two of the impairment assessment was required for one of its vessels held and used, as the undiscounted projected net operating cash flows did not exceed the carrying value. As a result, the Company recorded an impairment loss of \$30,304 for this vessel, being the difference between the fair value and the vessel's carrying value.

On November 27, 2017, Navios Partners entered into a Memorandum of Agreement with an unrelated third party for the disposal of the Navios Gemini S for a net sale price of \$4,078. As of December 31, 2017, the Company had a current expectation that the vessel would be sold before the end of its previously estimated useful life, and as a result performed an impairment test of the specific asset group. An impairment loss of \$2,373 was recognized under the caption "Vessel impairment losses" in the Consolidated Statements of Operations as of December 31, 2017. The vessel was sold on December 21, 2017.

On January 9, 2017, Navios Partners entered into a Memorandum of Agreement with an unrelated third party for the disposal of the Navios Apollon for a net sale price of \$4,750. The vessel was subject to an existing time charter with an unrelated charterer and was not immediately available for sale and therefore did not qualify as an asset held for sale as of December 31, 2016. As of December 31, 2016, the Company had a current expectation that the vessel would be sold before the end of its previously estimated useful life, and as a result performed an impairment test of the specific asset group. An impairment loss of \$10,008 was recognized under the caption "Vessel impairment losses" in the Consolidated Statements of Operations as of December 31, 2016. The vessel was sold on April 21, 2017.

NOTE 5 – VESSELS HELD FOR SALE

On April 27, 2018, Navios Partners agreed to sell the YM Unity and the YM utmost, two 2006-built Containerships of 8,204 TEU each, to its affiliate, Navios Containers, for a total sale price of \$67,000.

As of June 30, 2018, the vessels had been classified as held for sale as the relevant criteria for the classification were met and, therefore, were presented in the consolidated balance sheet at its fair value totaling \$67,000. The aggregate net carrying amount of the vessels including the remaining carrying balance of dry dock and special survey costs of \$2,104 amounted to \$104,860 as at the date of sale. An impairment loss of \$37,860 for the vessels held for sale was presented under the caption "Vessel impairment losses" in the consolidated Statements of Operations as of June 30, 2018. The vessels were sold on July 2, 2018, and proceeds from the sale were used to partially repay an amount of \$20,200 of the DVB Credit Facility (see Note 7 — Borrowings).

Term Loan B Facility: In June 2013, Navios Partners completed the issuance of the \$250,000 Term Loan B Facility. On October 31, 2013 and November 1, 2013, Navios Partners completed the issuance of an \$189,500 add-on to its existing Term Loan B Facility.

On March 14, 2017, Navios Partners completed the issuance of a new \$405,000 Term Loan B Facility. The new Term Loan B Facility bears an interest rate of LIBOR plus 500 bps, it is set to mature on September 14, 2020 and is repayable in equal quarterly installments of 1.25% of the initial principal amount. Navios Partners used the net proceeds of the Term Loan B Facility to: (i) refinance the existing Term Loan B; and (ii) pay fees and expenses related to the Term Loan B. Following the refinancing of the Term Loan B Facility, an amount of \$1,880 and \$1,275, was written-off from the deferred finance fees and discount, respectively. On August 10, 2017, Navios Partners completed the issuance of a \$53,000 add-on to its existing Term Loan B Facility. The add-on to the Term Loan B Facility bore the same terms as the Term Loan B Facility. Navios Partners used the net proceeds to partially finance the acquisition of three vessels.

The Term Loan B Facility is secured by first priority mortgages covering certain vessels owned by subsidiaries of Navios Partners, in addition to other collateral, and guaranteed by each subsidiary of Navios Partners.

The Term Loan B Facility requires maintenance of a loan to value ratio of 0.8 to 1.0, and other restrictive covenants customary for facilities of this type (subject to negotiated exceptions and baskets), including restrictions on indebtedness, liens, acquisitions and investments, restricted payments and dispositions. The Term Loan B Facility also provides for customary events of default, prepayment and cure provisions.

NOTE 8 – FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying value amounts of many of Navios Partners’ financial instruments, including cash and cash equivalents, restricted cash, accounts receivable and accounts payable and amounts due to related parties approximate their fair value due primarily to the short-term maturity of the related instruments.

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

Cash and cash equivalents: The carrying amounts reported in the consolidated balance sheets for interest bearing deposits approximate their fair value because of the short maturity of these investments.

Restricted Cash: The carrying amounts reported in the consolidated balance sheets for interest bearing deposits approximate their fair value because of the short maturity of these investments.

Other long-term debt, net: The book value has been adjusted to reflect the net presentation of deferred finance costs. The outstanding balance of floating rate loans continues to approximate its fair value, excluding the effect of any deferred finance costs.

(Expressed in thousands of U.S. Dollars except unit and per unit data)

Term Loan B Facility: The fair value of the Company's debt is estimated based on currently available debt with similar contract terms, interest rate and remaining maturities, as well as taking into account our creditworthiness. The book value has been adjusted to reflect the net presentation of deferred finance fees.

Amounts due from related parties, long-term: The carrying amount of due from related parties long-term reported in the balance sheet approximates its fair value due to the long-term nature of these receivables.

Amounts due from related parties, short-term: The carrying amount of due from related parties, short-term reported in the balance sheet approximates its fair value due to the short-term nature of these receivables.

Loans receivable from affiliates: The carrying amount of the fixed rate loan approximates its fair value.

Notes receivable, net of current portion: The carrying amount of the fixed rate notes receivable approximate its fair value.

Receivables from affiliates: The carrying amount of the long-term receivable from affiliates approximates its fair value.

The estimated fair values of the Navios Partners' financial instruments are as follows:

The Company measures segment performance based on net (loss)/income attributable to Navios Partners common unitholders. Summarized financial information concerning each of the Company’s reportable segments is as follows:

Navios Partners reports financial information and evaluates its operations by charter revenues. Navios Partners does not use discrete financial information to evaluate operating results for each type of charter or by sector. As a result, management reviews operating results solely by revenue per day and operating results of the fleet and thus Navios Partners has determined that it operates under one reportable segment.

The following table sets out operating revenue by geographic region for Navios Partners’ reportable segment. Revenue is allocated on the basis of the geographic region in which the customer is located. Drybulk and containerships operate worldwide. Revenues from specific geographic region, which contribute over 10% of total revenue, are disclosed separately.

NOTE 11 – INCOME TAXES

Marshall Islands, Malta and Liberia do not impose a tax on international shipping income. Under the laws of Marshall Islands, Malta and Liberia, the countries of the vessel-owning subsidiaries' incorporation and vessels' registration, the vessel-owning subsidiaries are subject to registration and tonnage taxes, which have been included in vessel operating expenses in the accompanying consolidated Statements of Operations.

In accordance with the currently applicable Greek law, foreign flagged vessels that are managed by Greek or foreign ship management companies having established an office in Greece are subject to duties towards the Greek state, which are calculated on the basis of the relevant vessel's tonnage. The payment of said duties exhausts the tax liability of the foreign ship owning company and the relevant manager against any tax, duty, charge or contribution payable on income from the exploitation of the foreign flagged vessel.

Pursuant to Section 883 of the Internal Revenue Code of the United States, U.S. source income from the international operation of ships is generally exempt from U.S. income tax if the company operating the ships meets certain incorporation and ownership requirements. Among other things, in order to qualify for this exemption, the company operating the ships must be incorporated in a country, which grants an equivalent exemption from income taxes to U.S. corporations. All the vessel-owning subsidiaries satisfy these initial criteria.

In addition, these companies must meet an ownership test. The management of Navios Partners believes that this ownership test was satisfied prior to the IPO by virtue of a special rule applicable to situations where the ship operating companies are beneficially owned by a publicly traded company. Although not free from doubt, management also believes that the ownership test will be satisfied based on the trading volume and ownership of Navios Partners' units, but no assurance can be given that this will remain so in the future.

NOTE 12 – COMMITMENTS AND CONTINGENCIES

Navios Partners is involved in various disputes and arbitration proceedings arising in the ordinary course of business. Provisions have been recognized in the financial statements for all such proceedings where Navios Partners believes that a liability may be probable, and for which the amounts are reasonably estimable, based upon facts known at the date the financial statements were prepared. Management believes the ultimate disposition of these matters will be immaterial individually and in the aggregate to Navios Partners' financial position, results of operations or liquidity.

On April 27, 2018, Navios Partners agreed to sell the YM Utmost and the YM Unity, two 2006-built Containerships of 8,204 TEU each, to its affiliate, Navios Containers, for a total sale price of \$67,000. Navios Partners calculates earnings per unit by allocating reported net income for each period to each class of units based on the distribution waterfall for available cash specified in Navios Partners' partnership agreement, net of the unallocated earnings (or losses). Basic earnings/(losses) per unit is determined by dividing net income/(loss) attributable to Navios Partners common unitholders by the weighted average number of common units outstanding during the period. Diluted earnings per unit is calculated in the same manner as basic earnings per unit, except that the weighted average number of outstanding units increased to include the dilutive effect of outstanding unit options or phantom units. Net loss per unit undistributed is determined by taking the distributions in excess of net income and allocating between common units and general partner units on a 98%-2% basis. There were no options or phantom units outstanding during the six month periods ended June 30, 2018 and 2017.

The calculations of the basic and diluted earnings per unit are presented below.

	Three Month Period Ended		Six Month Period Ended	
	June 30, 2018	June 30, 2017	June 30, 2018	June 30, 2017

Potential common units of 1,353,335 and 2,040,000 relating to unvested restricted common units for each of the three and six month periods ended June 30, 2018 and 2017, respectively, have an anti-dilutive effect (i.e. those that increase income per unit or decrease loss per unit) and are therefore excluded from the calculation of diluted earnings per unit.
